

Proposed First Reading – December 14, 2012

Proposed Second Reading – January 25, 2013

PASSED – January 25, 2013

Chapter 61 – Article III (Utility Construction)

Insert the following new subparagraph D. to § 61-18:

D. All outside storage tanks exceeding 25 pounds and not located at or above base flood elevations must be secured in accordance with applicable guidelines, rules, regulations and/or recommendation of the Federal Emergency Management Agency (FEMA) and/or in accordance with individual provider anchoring specifications. Effective date for proper anchoring of all outside storage tanks as indicated above shall be no later than June 1, 2014.

Re-number remaining subparagraphs in § 61-18 so that the subparagraphs previously identified as subparagraphs D. through L. shall now be identified as subparagraphs E. through M.
